

Real Property Site UID Registry Implementation

Craig Adams

ODUSD(I&E)

Business Transformation Directorate

July 21, 2005

Key Real Property Unique Identifier (RPUID) Concepts

- **All DoD Real Property sites and assets will be uniquely identified**
- **The RPUID will be created when legal interest in the Real Property asset or site is acquired by DoD**
- **The RPUID will be a non-intelligent unique identifier assigned to the real property asset or site, not the organization of the owner, occupant or manager**
- **Systems referencing real property information will use the RPUID to enable improved real property accountability, business management, and financial management**
 - Facilities and sites will be associated with the responsible organization
 - Expenditures will be able to be tracked at the individual asset level
 - Environmental liabilities will be linked to the affected site and asset(s)

Installation, Site, and Asset Relationships

Installations are composed of one or more sites

Installation

Sites are composed of one or more assets (parcels and/or facilities)

Site A

Site B

Site ...

An individual asset (facility or parcel) could also be a site; Assets (parcels and facilities) are the building blocks of sites and installations.

Facility or Facilities

Land Parcel(s)

Facility or Facilities

Land Parcel(s)

Real Property Site UID Implementation Direction

- **Site UID Implementation Memorandum**
 - Signed May 11, 2005 by USD(AT&L) with subject: “Policy for Unique Identification (UID) of Real Property Sites and Assets”
 - Requires interim operating capability by December 31, 2005 for real property site level of detail.
 - Requires integration of the site registry with geospatial information.
 - References the Real Property Inventory Requirements document located on the DUSD(I&E) web site

Real Property Site UID Implementation Status

- **Real Property Site Registry Status**

- Concept of Operations document assigns specific tasks and responsibilities is being coordinated
- USTRANSCOM designated as registry application host. Contract support is on board.
- OV-1 “High Level Operational Concept” completed
- OV-7 “Logical Data Model” completed
- ODUSD(I&E) BT acquisition action for data collection and validation effort for population of the real property site registry is in the award process

Real Property Site UID Implementation Milestones

What	Who	Planned Complete	Status
Fund registry standup	ODUSD(AT&L)	April 2005	Complete
Concept of Operations developed	ODUSD(I&E) BT USTRANSCOM Military Services	June 2005	In Coordination
Obtain software contract support	USTRANSCOM	June 2005	Complete
Award data contract	DCC-W	July 2005	In progress
Begin delivery of site data to Military Services	Data contractor	August 2005	Not started yet
Begin delivery of site data to USTRANSCOM	Data contractor	September 2005	Not started yet
Create registry	USTRANSCOM	September 2005	In progress
Begin loading of site data into registry	USTRANSCOM	October 2005	Not started yet
Link prototyped site/land parcel geospatial data (sample installations)	ODUSD(I&E)BT DISDI Office USTRANSCOM	December 2005	Not started yet
